SUMMARY

Software Engineering student with a high interest in AI-driven web applications, specializing in full-stack development, chatbot integration, and automation systems.

EXPERIENCE

- **Tech Content Author | Loopguy.com** *(Nov '26 - Present)*
  - Author SEO-optimized technical guides and comparisons, applying keyword research, structured HTML, and metadata best practices.
- **Full Stack Web Developer | Fiverr.com** *(Nov '23 - Present)*
  - Delivered Binance API scripts, a Reddit automation bot, and 3D plugins for clients worldwide using Python, JavaScript, PHP, MySQL, and Blender.
- **Full Stack Web Developer | ePlus Technologies, Portugal** *(Apr '25 - Sep '26)*
  - Managed the hostel's website and built websites for multiple hostels on reusable template using scraped data.
  - Developed a multilingual AI chatbot with FAQ image support and booking management, with n8n workflows integrating PHP, MySQL, JavaScript, OpenAI API, and Meta APIs. Also built a social media video scheduler and a quiz generator.

SKILLS

- **Programming & Web Technologies:** HTML, CSS, JavaScript, Tailwind CSS, PHP, Python, Java, C++, C#, React.js, Node.js, Express.js, MERN Stack, Responsive Design
- **Databases:** MySQL, MongoDB
- **Automation & APIs:** n8n, OpenAI API, Facebook API, Restful API Development
- **Development Tools:** Docker, Git/GitHub
- **Other:** Chatbot Development, Web System Design, Blender Plugin Development

EDUCATION

- Software Engineering | University of Rasul *CGPA: 3.86 | (Oct '23 - Present)*
- XII (Pre-Engineering) | Govt. Post Graduate College for Women *62.5%| 2023*

ACADEMIC PROJECTS

- **Smart Final Year Project Allocation System** *(Feb '26 - Jun '26)*
  Streamlined final year project allocation with a PHP/MySQL web platform where students submit proposals to selected supervisors, featuring role-based access and approval/rejection workflows.
- **Hotel Management System** *(Jan '25 - Jun'25)*
  Implemented a full booking workflow for a hotel web system, from user login and room selection to booking history and dynamic hotel information updates.

ACHIEVEMENTS

- **Neon Tic Tac Toe (Published on APKPure.com)**
  Designed and developed an interactive Android-based Tic Tac Toe game with engaging UI and smooth gameplay experience.
